Looking forward

Now that it seems that summer is well and truly over, we look forward to the winter!

We are eager to see who will succeed Harvue Roy Frosty and Winterbay Goldwyn Lotto in Madison and Toronto, to see which two-year-old cows will do well, what second crop bulls will live up to their expectations, to see the new heights genomics will reach; so many things we can look forward to this season.

We also hope you look forward to receiving your next Hotspots. In this issue you can read about two of the greatest cow families from Europe and the US; the Chemello family from Italy and the Kamps-Hollow Altitude family from the United States.

Looking forward is also something always at the forefront of our mind when we look at cow families like this; what will they bring in the future and from which branches will the top animals eventually come. Looking forward is something driving the sales; the excitement of securing a new animal, seeing if it will realise its potential and how we can develop this branch of the family! Also in this issue is our Heifer Rearing article, where we try to provide some interesting pointers on how to prepare your animal and market it to its full potential.

We wish all of you good luck this autumn with all your new endeavors; showing, sales and with personal goals. We look forward to celebrating your successes with you!

Best regards, The Hotspots Team

Schaffner is one of the most valuable German Shottle sons. Schaffner's dam, the Rubens RC daughter AHA Carla EX-94, in Germany was amongst others Senior Champion at the RUW Show 2007, and she participated in the European Show. Schaffner has several full and half-brothers with positive breeding values. Schaffner breeds taller daughters with average strength and slightly sloped rumps. They walk on excellent legs with optimal set to them and very good bone quality. Also the teat placement of the snugly attached udders is optimal. Schaffner's without exception positive functional traits conclude this picture of the new MASTERRIND Top Transmitter.

→ Global Appeal in Many Different Markets

Known worldwide as one of the most adored Durham daughters, this 11-year-old cow continues to make an impact on the Holstein breed. With high type and high index daughters and granddaughters showing up on top genomic lists, show results and sale catalogs, Altitude continues to captivate Holstein enthusiasts worldwide. Even more impressive is when this seasoned veteran showed up as #2 on the Top GTPI Red/*RC Cows from the Locator List on the August 2011 proof run.

The Beginning

Good things happen to good people and that is exactly what happened when three young college students purchased this young but promising Durham daughter off their dairy club sale in 2000. At the time their thoughts were on their drained bank accounts and little did they know the impact that one individual cow could have on their lives and the Holstein breed.

The original flush of Durham to the Excellent-93 3E DOM Ronnybrook Prelude, Clover-Mist Alisha-ET *RC, resulted in just one heifer and seven bulls. Owned by Richard and Ryan Kamps, Belmont, Wis. they decided to support the local University of Wisconsin-Platteville Club Sale by consigning this 10-month old Durham daughter, Kamps-Hollow Altitude-ET *RC. The morning of the sale the partnership of Mark Haag, Ryan Kamps and Ryan Weigel was formed and Altitude was purchased for \$5200. Since then the partnership has condensed to just Ryan Kamps and Ryan Weigel and KHW Genetics was born.

Interesting to note that Altitude was actually sold at one point early in her career; however, she popped *CV and the sale was reversed. So what seemed to be a bad day then for KHW Genetics turned out to be

a blessing in disguise and since she has produced numerous popular daughters and sons, several which are highlighted below.

KHW Kite Advent-Red-ET

Advent is the highly acclaimed Kite son of Altitude that needs very little introduction. His stats speak to the magnitude of his impact with more than 400 Excellent daughters in the United States and Canada alone and 105 All-American Nominated daughters in just the past five years. Forty-one of the 105 received the prestigious title of All-American or Reserve All-American according to the Red and White Dairy Cattle Association.

“I would say that Advent is the first sire to have sired all six nominations in a Red & White milking All-American class, he did this in both 2009 and 2010,” shared Stephanie Stout, Promotion Manager, Red & White Dairy Cattle Association.

Without hesitation, Advent is one of the all-time greatest show-ring sires of the red breed as daughters have accumulated various accolades at national and international shows worldwide. Advent has taken home numerous premier sire banners at the most prestigious shows nationwide including the Royal Winter Fair National Red and White Show and the Grand International Red and White Show at World Dairy Expo.

Going back to the beginning, the Kite cross on Altitude was not a contract mating but instead a decision by Ryan Kamps as Kite was a promising young *RC sire. The flush resulted in a single red bull calf, Advent. At the time Durham was hot and Altitude was just fresh.

“Advent coming to Select almost wasn’t possible. Being sired by a

Scott Culbertson, Dairy Sire Analyst, Select Sires, Inc.

*“Advent coming to Select almost wasn’t possible. Being sired by a young sire and a competitor at that, none of us knew if we could sell enough semen to justify him. But his mother from day one was outstanding and such a great pedigree. I had seen Kite*RC yearlings and really liked the frames and open rib structure to them so the cross did make sense.*”

He was purchased for Select but then failed leucosis. The bull was then offered to Glaze-Way Enterprises and leased back to Select and we offered him as a Super Sampler. The rest is history. His popularity was huge right from the beginning. And once his calves started winning shows, it greatly multiplied and his legacy even further upon them calving in. He is what he is. A great red show bull that makes the right kind of two-year-olds who mature so greatly. At Select we sampled right at 12 sons and are starting to graduate those.

The owners are as good of people as they come and it has been a great working relationship between KHW, Glaze-Way and Select. What a great impact bull for the red breed.”

Kamps-Hollow Altitude-ET *RC EX-95 2E DOM
One of the greatest Durham daughters and tremendous brood cow!

"Million Dollar Red Cow" and All-American!

KHW Goldwyn Aiko-ET *RC VG-86
Heavily contracted *RC Goldwyn daughter of Altitude!

young sire and a competitors at that, none of us knew if we could sell enough semen to justify him. But his mother from day one was outstanding and such a great pedigree. I had seen Kite *RC yearlings and really liked the frames and open rib structure to them so the cross did make sense. He was purchased for Select but then failed leucosis. The bull was then offered to Glaze-Way Enterprises and leased back to Select and we offered him as a Super Sampler. The rest is history. His popularity was huge right from the beginning," said Scott Culbertson, Holstein Sire Analyst, Select Sire.

Advent passed away in March of 2009 and ended his career being one of only a handful of bulls that was never taken off collection.

KHW Regiment Apple-Red-ET

"Million Dollar Red Cow" this headline reached not only dairy news publications worldwide but Apple was also featured on major news networks such as MSNBC and others! This widely famous cow started as an ABS Global Inc. contract mating. Even as a heifer Apple made her mark placing fourth as a spring yearling at the Grand International Red and White Holstein Show. In the summer of 2006, Apple was within a week from calving and caught the attention of Mike Deaver, Edgerton, Wis. A syndicate was formed and Apple was sold only to go on and accomplish the daunting task of earning All-American honors in both red and black divisions, a first in the industry.

Mike Deaver, Apple Partners

"Apple was the first red cow I had seen since Scarlet that I knew could be competitive with the best of the best no matter what color."

"To make a statement you have to run her with the very best and that year the junior two-year-old class was stronger in the black and white show than the red and white," Deaver shared when asked why they decided to run her in the black and white ring at World Dairy Expo.

Apple, a seventh generation Excellent, came back in 2007 to repeat and be Nominated All-American. The following summer Apple sold fresh as Lot 1 in the Global Glamour Sale at Arethusa for an astounding \$1 million dollars. Apple returned to Wisconsin owned under a new partnership and the marketing plans of this elite red cow began.

"It is a joint effort when it comes to matings, cloning and all other marketing and management decisions. We have a sit down meeting at least once a year, everyone does their part and the partnership really works well," Deaver said.

The owners have always had a very strategic marketing plan for this exceptional red cow. When they first purchased Apple they used established proven bulls such as Stormatic and Talent to establish her as a brood cow. When the decision was made to get some red calves they used Redliner. Deaver shared that this last group is the prettiest group with the Destrys and Goldwyns being very exciting young heifers.

Most people don't think of Apple and think index but her GTPI of +1938 coupled with her extreme type and no Storm blood make for an endless array of mating opportunities. The Apple Partners plan to utilize these opportunities and use higher genomic bulls in the next round of flushes.

"The cow is making a huge contribution to the red breed and with her genomics it is allowing people to get back into it and dabble a little," Deaver said.

Every daughter of Apple that has calved has been Very Good or Excellent in the mammary as two-year-olds. There are currently nine Very Good two-year-old daughters of Apple, one Good Plus-83 two-year-old and her only second calf daughter is Excellent-90, Ms Talent Applicious-Red-ET. Applicious is sired by Talent and currently owned by Kingsmill Farm II LLC, Gene Jager and Triple Crown Genetics but will be selling in the 2011 World Classic Sale. Other daughters that may be familiar are Apples Angelina *RC (s. Stormatic) and Apples Angel *RC (s. Damion) and have had embryo packages selling on the Holstein Plaza Online Embryo Auctions. Angelina and Angel are both Very Good-87 as two-year-olds and housed at Morningview Holsteins, Iowa.

Also exciting are the nine Apple clones. The first two are fresh, All-American Apple2 is VG-88 and Apple 3 is also just fresh after topping the 2011 National Holstein Convention Sale in Richmond, Va. and selling to Westcoast Holsteins, Chilliwack, BC. There are also three clones born Sept. 2010 and three born Dec. 2010. The best clone from each age group will be shown on the colored shaving this fall and Apple enthusiasts will have an opportunity at first choice of the two at the 2011 World Classic Sale.

Apple sons are starting to make their mark. Big Apple-Red and Apples Absolute are both sired by Talent and showing up in sale and show catalogs across the country. Big Apple sired the junior champion at the Ontario Spring Show, Quebec Spring Show and Ontario Summer Show as well as the reserve junior champion at the Ohio Spring Dairy Expo this year! Apples Absolute sired three class winners at the recent New York State Fair Red & White Show. Other sons to keep an eye out for are Apples Avatar by Shottle, Redbull by Tribute, Armani by Goldwyn and Invasion by Stormatic.

It is an exciting time for the Apple Partners, Apple was fresh in June with her fourth calf and ready for Madison. Those that have seen her agree it is the best she has ever looked!

Aiko, Hattie and More

With high global demand for her genetics, KHW Goldwyn Aiko-ET is currently the most heavily marketed individual at KHW Genetics. The +2050 GTPI red carrier Goldwyn daughter of Altitude has sold embryos to six countries with still more contracts in place. Aiko's daughters are also making quite a splash. KHW-I Aika Baxter *RC VG-87-2YR-CAN is currently the #15 GLPI Cow in Canada at +2909 GLPI and +2199 GTPI making her one of the highest Baxters and one of the highest *RC cows in the breed. Aika is owned by Gen-I-Beq and has daughters by Sahara, Bogart and Beacon. Aika's son by Sahara is currently the #8 gRZG bull for Red & White in Germany with a g RZG +141. Aika's daughter, De Jonge Aiko *RC, is a *RC Sahara and the #1 GTPI Sahara in the breed with a GTPI of +2093 and a PTAT of +3.82. This tremendous heifer is contracted for numerous embryos.

RR KHW Real Aiko *RC (s. Reality Red) is an Aiko daughter which sold through the Eurogenes Online Heifer Sale to Bolleholster Holsteins, Netherlands. Real Aiko is one of the very best heifers ever in the Bolleholster Holsteins herd and was reserve junior champion at the Summershow 2011. KHW Amabel-Red-ET VG-86-2YR is the very promising Redliner daughter of Aiko at KHW Genetics. An Aiko son, Amor Red, by Lawn Boy is currently the #15 gRZG bull in Germany and an international sire of sons.

KHW Genetics is excited to continue working with this promising young *RC Goldwyn daughter. Aiko is due early fall to Redman and has pregnancies by Shamrock, Kramer, Colt P, Bookem and Lewis. Other young daughters at KHW are sired by Lawn Boy, Million, Sanchez, Super, Meteor, Freddie, Alexander and Jeeves, many of these are also *RC including the highest *RC daughter in the United States, KHW Super Aderyn-ET GTPI+2328. There is also a *RC Super son, Holbra Aisikon *RC at WWS Germany. Aisikon sold through the Online Elite Bull Sale with a GTPI of +2260 and already has a lot of interest in using as a sire of sons.

KHW Sept Storm Hattie-ET *RC is the Excellent-91 September Storm daughter of Altitude. Hattie is owned by KHW Genetics and Rosedale Genetics with several exciting daughters currently being developed by Mark Rueth and Nicky Reape at Rosedale including a VG-87-2YR Shottle daughter.

More Proven Sires

There is no arguing Altitude's brood cow status after taking a closer look at Advent, Apple, Aiko and others but equally important are the other proven sires Altitude has delivered to the industry. Jotan-Red-ET is the Jordan son of Altitude and the German proven bull at Masterrind with daughters worldwide. Acme *RC available through Trans-World Genetics is sired by Talent and also direct from Altitude. A type specialist, he is +2.82 for type and +3.19 for udder composite with a GTPI of +1912. Axion-Red is the Marmax son available through Semex and a unique outcross red bull. To further compliment Altitude, every bull she has put into stud has made the active line-up.

The Future

"Really exciting are the heifers due this fall including Regiments, *RC Macs and *RC Shottles," Weigel said. Also just fresh are four full sisters to Altitude that look very promising.

The potential for this family is beyond barriers. Altitude at 11-years-old continues to still be flushed IVF with pregnancies by Destry and Alchemy. Altitude's dam by Prelude, Alisha, is also still roaming the pastures of KHW Genetics and will be IVF flushed again this fall.

Going forward, KHW Genetics plans to genomic test everything out of this high profile family and use the high genomic sires with ample type so Destry sons are currently on their radar. In their breeding philosophy it is important to keep a balance and not go too much one way or the other. KHW Genetics has been fortunate that they have been able to sell what they want.

Ryan Kamps, KHW Genetics

"She fits a lot of different markets from index, deep cow families and show type."

Few families have had the global appeal that Altitude has in so many different markets. She is certainly unique when you consider the branches and what they are famous for from Aiko to Apple to Advent. Things are just starting to get hot for this young cow family and the future looks bright as the branches continue to be developed. So whether you are in the market for red, index or show type look no further than this proven cow family, the Altitudes!

The 14th Online Sale

In 14 Eurogenes Online Heifer Sales, breeders from all over the World have experienced the great quality of the sale animals resulted in great show cows, bull dam's and foundation cows for their herds. Check the results on the Online Heifer Sale webpage.

All the sale heifers are selling with very lucrative bull- and embryo contracts which will help you to get a very fast return of your investment.

BID SYSTEM

- Sale website through www.eurogenes.com
- COUNT DOWN SYSTEM : Sale price will go down every day, until the moment of purchase
- The Sale starts at October the 12th 2011. And will close November the 2nd or earlier, at the moment all sale animals are sold.

Quality sale animals

All sale animals have been inspected by the sale organization. Pictures of the sale heifers will be available in the sale catalogue or with the sale organization. Also it is possible to inspect the heifers at their farm.

Genomics

All Sale animals will have a Genomic Result before the start of the sale.

Transport & Export

All Sale animals are qualifying for export. Eurogenes takes care of the export of your animal until the final desintation. For foreign buyers, we can arrange housing possibilities.

Hurkmans ET Donorstation and "On Farm" embryo transfers

- More than 20 years experience in flushing and "On farm" flushing and ET
- Competitive price rates and discounts at 5 or more flushes / year
- EU approved donor station
- We take care of your valuable animals, produce, freeze and store their embryos
- We can export your embryos worldwide from out of our facilities

Donor Management by Hurkmans ET

- Boost up your embryo production with our QRF Program (3 flushes in 70 days)
- Professional support to make your donorcows profitable.
- Advices on superovulation, synchronisation, feeding donors, bull choice, marketing and veterinarian issues.

Embryo-Recipient Management by Hurkmans ET

"Send your embryos to us and we will deliver you your calves"

Hurkmans ET has several recipient herds available where we transfer your embryo's. We take care for synchronisation, transfers, preg- checks, and we inform you when your calves are born and ready to pick up.

Housing facilities

Hurkmans ET has a wide experience with the Donor Management and Embryo Recipient Programms. Many breeders and organizations around the world have chosen already for Hurkmans ET.

Current interesting cows in our Donor Station:

- B BWM Mae (BWM x Whittier-Farms Lead Mae EX-95)
- Oelhorst AK Ikessy VG-88 2yr. I QRF program: 38 embryos in 100 days
- Bacchus Eliza Mae I QRF program: 24 embryo in 3 flushes
- Bacchus Roxy 2 and 3 Red (Grand dtrs of Debutante Rae) I Over 30 embryo produced
- Caps Mairy 14, #1 GTPI Jeeves in the breed

- AJDH Viroasca Socra and DG RMR Andrea (#1 GTPI Roumare dtr) for Misty Springs Holsteins Canada. Both have been in our Donor Management programm, and more then 30 embryos have been exported to Canada

The Z Factor

Past Present Future

THE PAST - ZANDRA, EX-95 - COW POWER WITH 12 EX DAUGHTERS & COUNTING
THE PRESENT - O MAN ZABRINA, EX-90 - A UNIQUE INDIVIDUAL THAT COVERS ALL THE BASES
THE FUTURE - HIGH GTPI ATWOOD ZANDY - PAST, PRESENT & FUTURE IN ONE EXCITING PACKAGE

We're using our proven past to build for the future. We think a time-tested cow family with wide global appeal makes a great shock absorber in the fast-paced future of genomics. We invite you to stop during Expo to see these members of the Zandra family ...and others...that made the ride to the Midwest. Contact us today to add The Z Factor to your herd with embryos by Gold Chip, Super Large, Braxton, Shamrock & Bradnick.

Whether you focus on type, productive life or a balance of production and components, JANCE puts together the complete, productive package and he gets cows bred. Plus JANCE has surpassed his famous brother Jeeves as the highest Outside son in the breed. JANCE has no O Man, Shottle, Durham or Goldwyn and can be used on a variety of pedigrees. Call today for JANCE semen as well as information on our other productive bulls.

"PROVIDING GENETICS TO THE WORLD THROUGH SEMEN FROM TOP COW FAMILIES."

Gloryland LEASHA RAE

GOLDWYN X LAKOTA RAE X LANA RAE

Lakota Rae & Leasha Rae

In the anticipation of a new beginning...

Leasha Rae will lay the new foundation as we go forward following our Gloryland Red Tag Sale. We look forward to developing this exciting young Goldwyn who is due in December with an Advent heifer...the start of our "red" Roxy line. Leasha Rae was flushed twice as a heifer with Triple Threat embryos going to Foxleigh Holsteins in Australia and sexed Acme embryos to Martin Rasmussen in Denmark and Andreas Hanni in Switzerland. We were saddened by the loss of Leasha Rae's dam, a VG-88 EX-MS first-calf Zenith. With the loss of Lakota Rae the consecutive line of EX Roxys was broken, but we know she would have been one of Lana Rae's greatest daughters. We're confident Leasha Rae will pick up where her tremendous young mother left off.

EMBRYOS AVAILABLE

Bolton Janice just scored Very Good-87 at only 10 days fresh and is only getting better. She has a Planet son that will be tested soon to enter our young sire program. M Janice, a BW Marshall, recently scored a perfect 100 for feet and legs and is now Excellent-93. This family is functional and profitable, and you can get in at the ground level.

Contact us for current embryo inventory or to place an order for future embryos. Don't be left out of this extraordinary family!

→ Make money with better preparation

The difference between a well prepared animal with less time spent on her before a sale can easily be hundreds of euros or dollars. With the right preparation and excellent health status, breeders can simply earn more money, at least when you know how to do it. Hotspots spoke to specialists and fellow breeders to get some useful pointers on key aspects of sale preparation.

International cowfitter Erica Rijnveld often compares her cowfitting activities with women who go out to a party. “She will make sure she looks on her best: goes to the hairdresser, puts make up on and of course, wears the most beautiful clothes she can find. When you have a cow or a calf at a sale or show you want the same: get all the attention you can from buyers or a judge.” While working in Europe and North America, Erica notices that there is a lot of difference in preparation for a sale: “As a sale team we get the animals two or three days before

“A great picture is worth a thousand words!”

the sale. Although we do our very best, it’s sometimes a hard job when breeders have taken the animal out of their pen only once before they go to the sale. With more preparation we would be able to get a better result and, yes, a better price.” Richard Bown of Richaven Holsteins in England confirms. “If the animals look and show well, it makes a big difference. The customer wants to buy. I am a big believer that good preparation makes selling easier.” Also auctioneer Dave Rama from Cattle Exchange notices that there are vast differences in the way cattle come to a sale and how they are prepared. “Few breeders take the time to halter break their cattle and pre clip the animals prior to shipping. The breeders that do, in most cases, derive extra dividends for their cattle. An individual that parades around the sale ring like a champion on a halter will always command respect. On the really fancy individuals it can be substantial dividends. There are some cattle

that come to the sales and act like kangaroos for the entire week prior to the sale. That is rough for the cattle and the fitters as well and should be avoided!”

The right feeding and excellent health

But what can you do to make your calf, heifer or cow look better before the sale? Preparing your animal for the sale or show starts with the right feeding! This means a lot of roughage for young stock. “Most of the time, the condition of the animals is too good”, Erica notices. “They can be too fat, have heavy thighs and that isn’t the way you want to see it. They look more elegant and more dairy when they are leaner.” She thinks hay and concentrate fits the best; “At least for the younger animals.” The diet of cattle will be drastically altered when sent to consignment sales, adds Dave. “These cattle will be placed on a hay diet to expand rib cage, tighten up manure, etc. If your animal has never sampled dry hay, please do so for a week prior to shipment. It will make a huge difference!”

Erica advises to separate the sale animals in a pen with straw. “But never alone, the animals need the competition and company.” And

Dave Rama, USA: “\$ 20.000 profit thanks to genomics

On the question of how important it is to sell your animal with genomics, auctioneer Dave Rama is clear: “Every animal that has any chance of carrying a high GTPI should be tested ahead of the sale. We have already seen cattle consigned that were not tested, sold in May, immediately GTPI tested, resold in July and watched buyers resell for a \$20,000.00 profit in two months time! If you see an animal in a sale that is not tested and she has a chance of a high GTPI test, be sure to place her on your radar screen as an opportunity!”

Richard Bown: "The best show condition is daily routine"

Richard Bown from Richaven in England fits the preparation for a show or a sale into his daily routine. "I make sure the animals look on their best every day, then you don't need to do a lot when there is a show or sale and it is no trouble at all." For Richard this includes washing any dirty tails of his 82 cows every day. "While they are in the milking parlour, I wet the tail with a hose. I have to wait for the machine to finish milking anyway." His youngstock is fed hay and 2 to 2.5 kilos cake with 17 % protein. "That is the best feed for them, I like it when they are deep ribbed. I feed it to them every day, so they always look good." He realizes that he won't get the highest growth this way. "We give them a bit more time, because they calve for the first time at 2.5 years."

A few months before going to a show or sale he clips the animals completely. "So they can start making nice fresh hair on time." It's also a good opportunity to train the youngstock on the halter. "To be honest, we don't train a lot. They get fed up and bored if you train them too often. We like them to be fresh and alert." Only two or three days before 'the big day', the animals are washed, clipped and trained again. "It means that we only have them on the halter for three or four times. We think that is enough." He mentions that most of his animals are sold privately on his own farm. "We have visitors almost every day, but I don't need to worry about how the cows or calves look. They are always in show condition."

she warns to check the claw condition. "The hoofs can grow longer in straw. Trim them if necessary a few weeks before the sale and not a few days before, otherwise they might get lame." And that costs money, as Dave confirms; "An animal should never come to a consignment sale that needs a special negative announcement such as; she carries fluid in the right hind quarter; she has foot rot and she is not walking

"A well trained animal shows itself better"

right today; she has a webbed teat, etc. Cattle are discounted for these problems and usually more severely than they should be."

And talking about the health of the animal, Dave mentions that breeders should take pride in their consignments. "Cattle should be de-horned, free of lice, mites, ringworm and warts. Extra teats should be removed as well. Make sure cattle are sent with proper vaccinations against shipping fever as well. In addition, we also recommend testing cattle for BVD-PI." It fits in the picture that an animal is at her best, not only from the outside, but also on the inside. "If cattle come to a sale covered with manure and dung balls, carrying lice and or mites, you can expect the price you receive in the end will be under market value in most instances."

Clip to make new hair

Next to feeding and health a good preparation also means working with the animal a few months before the sale. Erica: "Tie them up on a halter a couple of times to let them get used to it." About two months before the show it's time for their first clipping experience. "This way you get rid of the old hair and they will make new and thick hair which is easy to work with later." It's also handy to check after clipping if the skin is all right. "When they are scruffy you still have time enough to adjust this." Should you also clip their topline? "In the winter the topline will grow on again, no problem. In the summer it's more difficult", Erica says. The last phase in the preparation is a few days before the sale. Wash them again and train a few times on the halter, advises Erica. "Well trained animals show themselves better and the potential buyers can see her much better than when she 'hips' from one side to the other." Although the numbers, like the genomic

test, are more and more important on sales there still a big emotional factor. "When you buy a calf or a heifer you want to be sure that she will grow into a beautiful cow."

Well spent time

Erica realizes that these preparations demand time of the breeder. "Everybody wants to get the highest price for an animal with as little work as possible. But it doesn't work that way. You need to spend some time on the animal, I am sure you will earn it back because the animal presents and sells itself better."

To help your potential buyers a professional photo is of great assistance, adds Dave. "Nothing sells an individual or a group like a professional photo. Buyers worldwide leave bids based solely on photos. A great picture is indeed worth a thousand words!"

Good feeding and housing of huge importance to prepare your animal to the ultimate condition

Sister to Canada's

#1

BULL LEXOR!!!

Baxter Lilac Z VG-88 89-MS 2yr.
2.02 305d 15.558kgM 4.1%F 3.1%P (SCS 32)
Highest productive 2yr. Old in the herd ever
Her Cricket son is in German AI after high Genomic test
Her Superstition dtr sold for € 11.000 in the DHV Sale '11

Dam to Soureth Leanne 317 (s. Ralma Oman Cricket)
US 08/11 GTPI +1993 - #4 Cricket in Europe
She will be in flush programm soon

Comestar Goldwyn Lilac VG-89-CAN 4yr

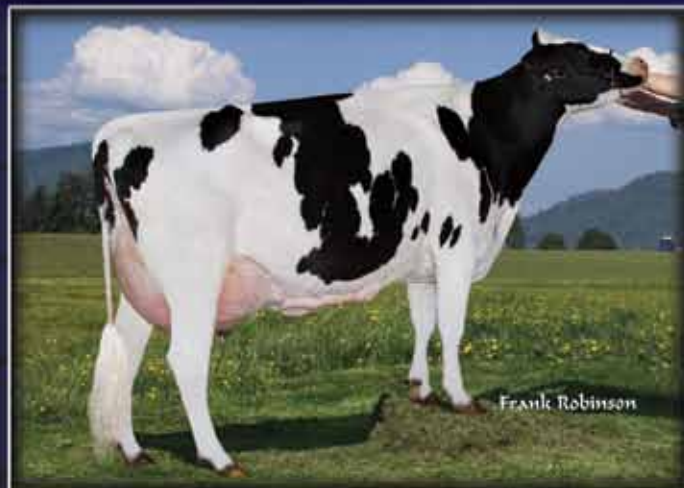

Dam of Baxter Lilac Z VG-88 one of the greatest index brood cows right now.

BAXTER LILAC Z is the maternal sister to Generations LEXOR,
the #1 GLPI Bull in Canada (CA 08/11 GLPI +3331 / Conf. +11)

Full sister to Lilac is dam to Willsbro LARSON RC @ Semex, #1 RC Bull in the breed
Twin sister to Lilac is dam to Gen-I-Beq Lavaman @ Semex, the #2 GLPI Bull in Canada
Lilac is dam to Landini (#1 GPA-LPI Shottle) and Lakeshore (#1 GPA-LPI Million)
Lilac her Freddie son goes to Generations and has over 2400 GTPI!!!

And also..... Outcross DOMAIN & Domain's family!!!

Frank Robinson

Ronelee Toystory Darva EX-90-USA EX-MS 4yr.

Full sister to DOMAIN!!!

Toystory x Ronelee Outside Dabble EX-91-USA x EX-93 Rudolph
x EX-95 x EX-91

Dam to Soureth Darla Delight 354
(US 08/11 PTAT +1.84 / GTPI +2052)

©Billy Heath

Ladys-Manor Marcie Babe VG-86-USA 2yr.

From the same family as SHAMROCK!!!

Boliver x BW Marshall x Ladys-Manor Ruby JENII

Dam to Soureth Ruby Do 360

(s. DOMAIN, not available in Europe!!)

US 08/11 NM \$ 594 / PTAT +2.93 / GTPI +2190

Chemello Jocko Benge

“Italian Design – Global Fame”

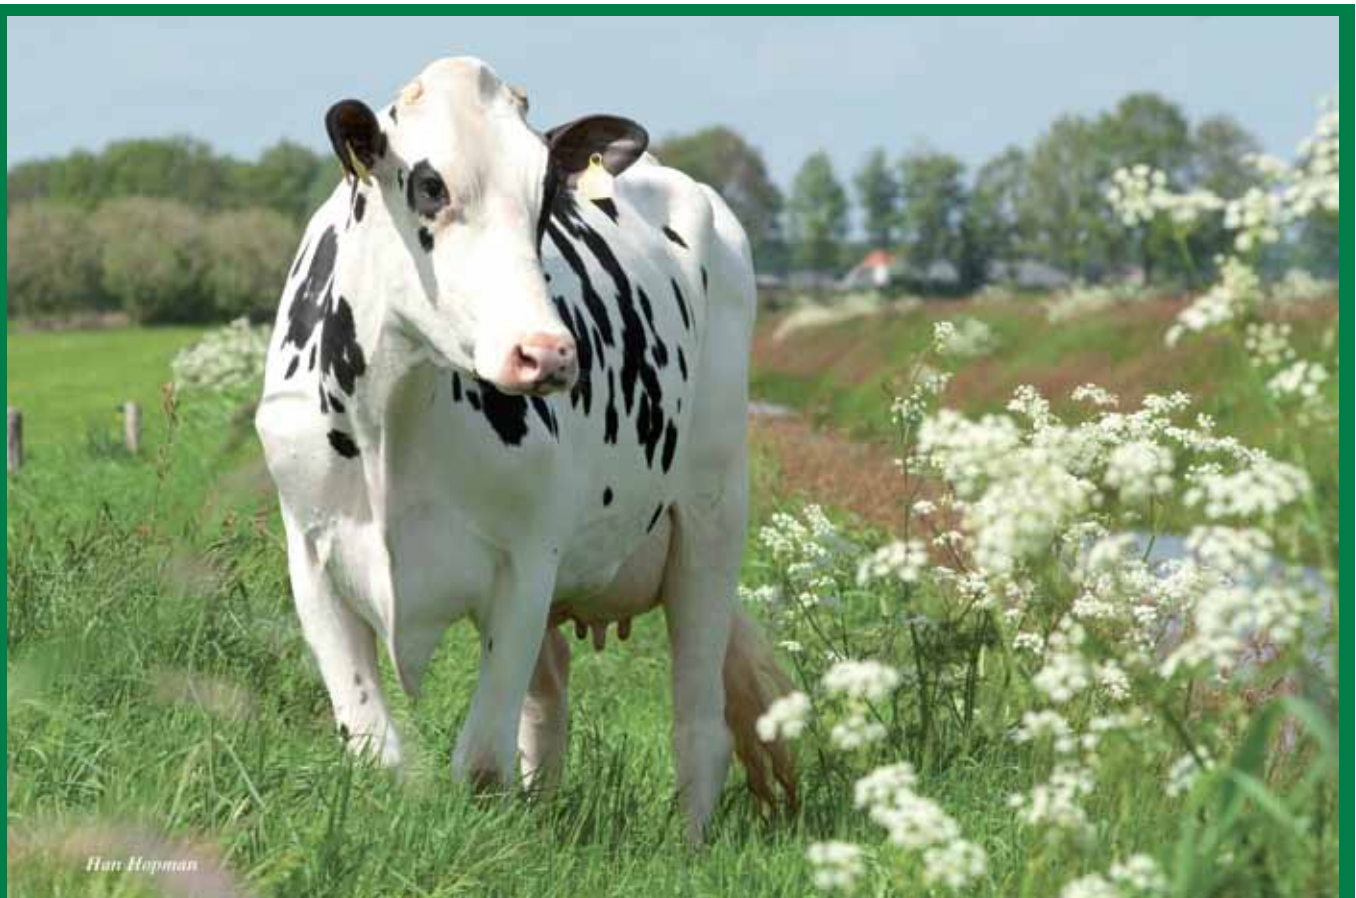

This story outlines an Italian bred cow family which has attracted global fame over the last few decades. This consistently outstanding cow family has produced proven sires in Italy over many generations, a list which increased explosively a year after Benge’s sons got proofs.

In 1981 the family of Mariano Chemello (Chemello Holsteins) purchased a Greenbanks Conqueror daughter, Bum, at Recagni Farm. Bum bred well, but it was her granddaughter by Sunnyside Complete who really got the family started, with Chemello Complete Quety scoring VG-88-IT and breeding exceptional youngstock.

Proven sires - before Benge’s time

The first proven sire of the family was bred from the Southwind granddaughter of Complete Quety, via a high yielding VG Secret (Chemello Secret Siria), when Chemello Bar Lee Uva calved in and scored VG-85-IT 2yr. Uva became the first bull mother of the family, transmitting what was to become probably the best quality of this cow family: producing successful proven sires....

It was Uva’s Mascot son Poster who debuted in 1997 and he held a strong position in the Italian bull listings as a proven sire which resulted in 500 daughters in his Italian proof.

Han Hopman

Anderstrup Ramos Camil EX-90

Sons in AI already by Niagra & Snowman / Her Niagra dtr is the #2 Niagra in Europe and #2 Outcross heifer (GTP+2279)
One of the most popular cows in Europe last year; embryos exported to USA, Japan, UK, Ireland, Italy & more

Brood cow extraordinaire

Anderstrup Laudan Cherri VG-89-DK
Dam to De-Su Capricorn @ ABS

Leko @ RBB Germany
The #1 RZG & GTPI Laudan son in the breed

Westrik Chemello 1 VG-89
Great Duplex dtr out of Chemello Jocko Benge

Uva's influence continued through Poster's Slocum sister, Chemello Slocum Gia VG-88-IT. Gia provided considerable excitement in Italy when her Mtoto son, Chemello Mtoto Zarik, debuted at 4th place in the Italian proven sire top ranking in 2004, jumping to the leading #1 position a run after!! With this top ranking he became one of the highest proven sons of Mtoto which made him popular all over the world. Nowadays, Zarik has over 10.000 dtrs milking in more than 10 different countries.

Chemello Jocko Benge & her move

Prior to Zarik's success, his full sister, Chemello Mtoto Farfalle VG-85-IT 2yr. calved in 2000 to one of the hottest sires of the moment; Jocko Besne. This heifer was Chemello Jocko Benge VG-87-IT 2yr, a cow described by many as one of the very best brood cows sired by Jocko Besne.

Producing proven sires is one of very best qualities of this cow family

Benge did it all with perfect timing. She calved and looked great, had the pedigree all sire analysts were looking for with Jocko x Mtoto, scored VG-87-IT 2yr (VG-88 is the maximum 2yr old score in Italy) and coincided with the huge popularity of her mother's full brother Zarik. That was the moment Anderstrup Holsteins from Denmark made a deal to purchase Chemello Mtoto Benge VG-87-IT 2yr to bring her to the Anderstrup barn. Unfortunately she didn't pass the final health test for the very strict export restrictions in Denmark, so Diamond Genetics from Holland took the opportunity to purchase her together with Twin Genetics. Anderstrup Holsteins still benefitted from the sale however, as they secured 20 embryos from Benge to establish her influence in their herd.

Benge's proven sires – Four number 1's

Benge attracted attention from AI's all around the world and was contracted by all the major AI stations, and she did where she was contracted for; making proven sires and not just proven sires, she produced four number 1's!!

Six years after Zarik's number #1 position in the Italian PFT Ranking, Benge delivered the new hot Italian bull with her Titanic son, Chemello Selvino. Selvino has now been on the sire of sons lists for a while. He has a very reliable proof (90%) and high index with high compo-

nents (+0.10% protein) and allround high type, excelling in his Feet & Legs score; he is still the #4 Feet & Leg bull in Italy with +3.87!!

Benge has also always been extremely popular in Germany. It was the AI Station of the popular bull Laudan, RBB, who purchased Benges beautiful Laudan son Leko, now the #1 Laudan son for RZG (+139) and TPI (+1992). The German proven Leko has a very steady position in the German ranking and is on the sire of sons top lists for many AI Station around the world.

Torsten Dalle (Vost): "The Leko's remind me of the Laudan's although they have more substance and even better feet and legs. Like his sire, he can sometimes transmit a little higher pin setting but the rumps are wide enough. We think the Leko's are very suitable for free stalls. They are medium sized dairy cows with a nice blend of strength and dairyness, with excellent rear udders although sometimes fore udders could be better attached. They really milk. We are now exporting his semen to quite a few countries including Japan, Italy and the USA. He is nearly 2000 TPI in the US and with his different bloodlines we think he is a welcome addition to US breeders too. The first Leko calves are just born. It is too early to tell how they will test genomically, however we are confident that Leko's offspring will be in demand."

This magazine hasn't enough pages to describe all Benges successful proven sons in full, but you can find them in the table below. Highlights include; BG ET, the #3 Shottle son in Germany, BG ET's full brother Dansire Shottle Simm at Viking Denmark, Diamond Twin AltaZeus (The #1 Elo son in the breed) and Tartani which is the #1 daughter proven Tresor son in Germany!

Global Cow of the Year

Due to her continued success, Chemello Jocko Benge has been nominated for the 2nd time in a row in the Global Cow of the Year contest organised by Holstein International.

In the first contest she got a Top 5 position from both professional Judges, respectively Ryan Starkenburg of ABS Global and Eric Lievens of CRV. For each judge, Benge was their favourite cow out of a European cow family.

The next generation and Genomics

Chemello breeding has also transmitted well through the female line of this family, with daughters by Shottle in Denmark making waves. DT Shottle Benita VG-89 2yr is housed at Dueholm Breeding, where she has produced the #4 gRZG Billion son Blomdahl, now in the MasterGen program at the German AI Station Masterrind.

Pierre van Oort is milking two fantastic Duplex daughters from Benge. One of these, Westrik Chemello 1, is VG-89 in 2nd lactation and looks like a potential Excellent cow for next lactation. Chemello 1 VG-89 produced the Mascol son Westrik Chill at CRV, with 113 for

total type.

The biggest influence in the next generation of Chemello's looks set to come from Benge's Laudan daughters in Denmark. Anderstrup Laudan Camille VG-89 and Anderstrup Laudan Cherri VG-89, along with their full brother Leko, demonstrate the huge success of this "Golden Cross". Two of the very best and most interesting Laudan daughters in Europe, they each have first lactations of over 13.000 kg milk in 305 days and were contracted for AI Stations around the world, including Japanese and American AI Studs, before the advent of genomics.

The introduction of Genomics was an exciting time for every cow family in the world, but how would they rank? Of course expectations of the Chemello family were high with the influence of the bulls that had already succeeded through the daughter test system.

Torsten Dalle (RBB)

"The Leko's remind me of the Laudan's be it that they have more substance and even better feet and legs."

Cherri embryos were exported to the famous De-Su Holsteins in the USA, which resulted in De-Su Capricorn @ ABS (US 08/11 GTPI +2103 / PTAT +2.57). His full sister Anderstrup Planet Cher sold in the Eurogenes Online Heifer Sale for € 12.750 to Gerald Creed in the UK and she is the #16 GTPI Outcross heifer in Europe with GTPI +2135!!! Another daughter of Cherri was born in Northern Ireland, and Ballycairn Socrates Cherri is ranked as the no. 10 Socrates daughter in Europe with a GTPI of +1991, PTAT +2.14 at two years old!

Exciting Camil & Back to Chemello

One of the most exciting branches of the family, and one of the most popular cows in Europe last year is Anderstrup Ramos Camil EX-90. She was imported to Holland in 2010 where she sold for € 26.000 in the Holland Masters Sale to De Volmer Holsteins.

Camil is heavily contracted world wide with embryos exported already to the USA, Japan, Italy, UK, France, Ireland and more!! She is a former Top 25 GPTI Outcross cow in Europe and looks like she can develop into a great brood cow.

Her 1st Choice Niagra dtr sold for € 14.500 in the Eurogenes Online Heifer Sale to somebody very familiar with the Chemello family, Chemello Holsteins themselves! The resulting calf out of this 1st Choice was Anderstrup Niagra Chemello and with a GTPI of +2279, she is the #2 GTPI Niagra dtr in Europe and the #2 GTPI Outcross heifer!!

The first bull results from Camil's progeny also came back very impressive. Camil's Snowman son, AJDH Camera, has GTPI +2213 / PTAT +3.15 while her Niagra son Anderstrup Nigel seems to be one of the most interesting outcross bulls for 2012, with GTPI +2190, PTAT +2.32 and outstanding numbers on the fitness traits; DPR +1.1, SCS 2.54 and PL +7.3!!

Though the family was established through humble beginnings with limited numbers, these Chemello cows have gone on to achieve at extraordinary levels. Whether now or in the future, don't be surprised if you find them exerting their influence on your herd, particularly through sires providing very useful outcross options. With big milk records, high genomics and consistent management traits, investing in Chemello's might just be the breeding choice to make!

"PROVIDING GENETICS TO THE WORLD THROUGH SEMEN FROM TOP COW FAMILIES."

... it's impressive, how fast the quarters will be soft!

- Gerrit de Groot

Johan, Wim, Jacco, Hennie en Gerrit de Groot
Merwehoeve de Groot BV, Herwijnen NL, 230 cows

In January 2011 we tried Udder Comfort for the first time. We use Udder Comfort to get hard quarters back soft. These udders we spray several days with Udder Comfort and it is impressive to see how fast the quarters will be soft.

Beside of the yellow spray we use the white lotion, too. We apply on our showcows two days before the Ring and the veins are much better visible.

Merwehoeve de Groot BV, Herwijnen – Netherlands milking 230 cows

... we keep going with using Udder Comfort!

- Han Brink

"Since January 2011 we use Udder Comfort. The results are positive. We spray the heifers 3-4 days before calving. They get less hardness and softer udders and teats. After calving the heifers are better prepared for milking. We spray any hard quarters for 3-4 days to soften them."

This exciting Planet daughter sold for \$90,000 with multiple contracts and is from the Z-Delight family. Diamond has two daughters selling by Ravish.
consigned by ZBW

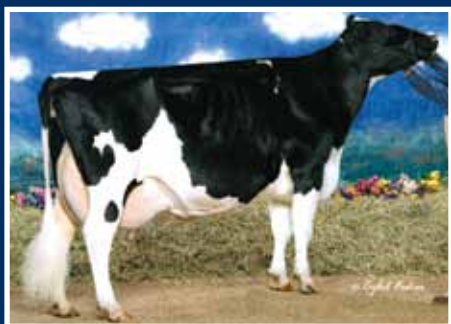

Burr-Ayr Bolton Tressa VG-87 GTPI+2156

2-03 2x 365d 33,027 4.0 1332 3.1 1038
Oman Gabriella family... 1st Choice MAS Female sells from Tressa's Shamrock +2492 GTPI +942NMS and #1 from 9/11 run! Also selling 5 #1 Cameron x Tressa *TY embryos and daughters of Tressa's Spear-mint sister.
consigned by ZBW, Ken Burr and R-E-W

Potters-Field Bxtr B8958-ET

Very Good-85-2YR • GTPI+2047
8958's sister by Planet sells GP-83 and will be re-scored before the sale +2235 GTPI +779NMS... making her the #23 GTPI Cow scored GP or higher in the U.S. A high genomic Planet with a unique sire stack!
consigned by Spruce Haven

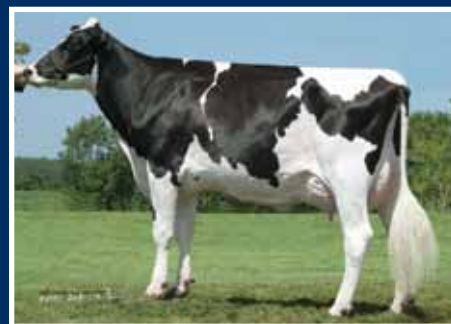

Stone-Rise Durham Lizzy EX-95 3E

HM All-American 125,000 lb. Cow 2007
Tremendous brood cow and donor avg. 10+ eggs per flush! This deep pedigree EX-95 All-American nominated Durham sells with records over 50,000M 1500F 1600P. Also selling 15+ family members!
consigned by ZBW, Brown and Patten

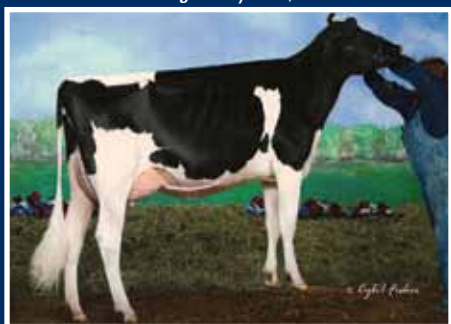

Willow-Marsh-CC Gleem EX-90

3-05 2x 365d 28,734 4.6 1327 3.1 890
SHE SELLS... First 5-Yr-Old at the CNY Holstein Show in 2011, this Goldwyn stands 66 inches tall and will be hitting the tanbark this fall! The #14 PTAT Cow in the U.S. and from a deep maternal line.
consigned by J. Kevin and Barb Nedrow

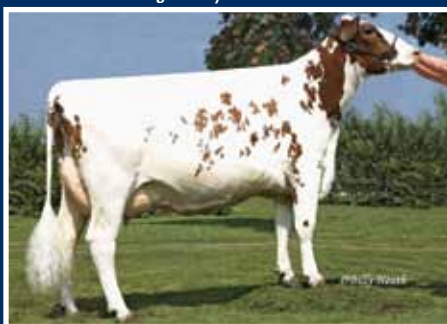

Oakfield Outside Brynn EX-92 2E

5-09 2x 305d 31,600 4.4 1379 3.2 1011
Being offered from this great cow family are a 3/11 Mr Marvelous and a 9/10 Goldwyn — daughters of Oakfield Shott Brigitte-ET (guaranteed to score VG), a Shottle daughter of Outside Brynn above.
consigned by Roll-N-View

Curr-Vale Goldwyn Delicious EX-91 DOM

3-02 3x 365d 32,957 4.3 1412 3.1 1027
A *RC Goldwyn and #7 GTPI Red/*RC on the locator list at GTPI+2000. She is backed by seven generations Excellent and her Beacon daughter sells!
consigned by Curr-Vale Holsteins

Golden-Oaks Rmn Rae2-Red-ET VG-88

4-03 2x 365d 33,710 4.7 1595 3.5 1179
RED ROXYS... Selling is a *RC Observer from a young Debonair, polled and red! Next dam is the Redman Rae2 *PO above then the great Perk Rae!
consigned by Kulp Genetics

Vermillion Dstrgn Spring-Red EX-93 2E

2x Nominated All-American Red & White
Fresh again and recently named reserve grand champion of the CNY Show 2011! Her 12/10 Dusk and her VG-88 September Storm daughters sell!
consigned by ZBW and J Westbrook

Alpag Iron ACTIVE

Choose your favorite ACTIVE daughter

Active has a fantastic sire stack with Boss Iron as a sire, a VG-88 Manfred as mother, and the famous brood cow Neu-Way Patron Allie as grand mother! This great combination of type from father Boss Iron, the health traits of Manfred and the great back ground of the Allie's resulted in one of the most interesting 2nd crop outcross bulls in the World! With 1518 daughters milking in Italy, the USA, Holland and Germany, we see a very reliable proof which excels in functional easy management cows with great health traits with 110 Longevity in Italy and 106 for Fertility.

His very best daughters are now sought after for bull dams by AI Stations all over the World, and his bloodlines will definitely have a great influence on the breed.

A Bremer Active Charm VG-86-USA 2yr.

	2413	3.93	2.91	2.92	3.9	2.65

Monreal and Pioneer are two of the highest genomic giants in the breed and scoring extremely high in both German and American indexes! Monreal is a real type specialist under the Man-O-Man sons and is out of the Glorriette EX-92 (Bonatus) cow family. He is also known for tremendous udders with capacity, height and width! Pioneer goes back to the famous Hendel Durham Mitzi EX-90 cow family, which has many members in the top genomic rankings. He is outstanding for Productive Life and Net Merit (+806NM\$) Monreal and Pioneer are both currently being used as a sire of sons.

AMS GENETICS

Sourcing Genetics for the World

**AMS Genetics can source embryos to fit your individual requirements.
If you want production or shine in the showing AMS Genetics is your starting point!**

EXAMPLES OF DONOR COWS THAT AMS GENETICS GENETICS IS WORKING WITH

Leaderwin Jeeves Mace VG-87-2YR
#1 Milking Jeeves Daughter 8/11

L-L-M-Dairy J Stream Procky VG-86-2YR
#1 Jet Stream Daughter in the U.S. 8/11

Foxberry Stream Myra 619 VG-86-2YR
#2 Jet Stream Daughter in the U.S. 8/11

Bremer Active Charm VG-86-2YR
Dam is a full sister to Colby

AMS Genetics has 29 years experience in the sourcing and exportation of Holstein embryos to the World. Although many things changed over the 29 years, one thing is still a constant, our commitment to our clients to provide great service and to locate and obtain the genetics that they need. If you are looking to purchase embryos to introduce new genetics into your AI Company or your herd, AMS Genetics will be your partner in sourcing the U.S. genetic base and handling the exportation. We can adapt our selection to emphasize your selection criteria, so we focus on the genetics that will do the best job for your goals.

Services:

- Sourcing and locating Embryo Donors
- Herd Visitation Selection Tours
- Contracting of Donors
- Complete Coordination of: Embryo Recovery
- Health Certification & Documentation
- Inland Assembly & International Shipment Insurance
- Housing & Management Assistance for
- Cattle housed in the U.S.

Maxim

Nova-TMJ Golden Echo – Maxim's dam

**RR Nova Extra Special –
Maxim's full sister**
€36,000 at the European Classic Sale

- Many breeders have waited for the Man-O-Man son MAXIM out of the exciting Nova-TMJ Golden Echo VG-88 (UFM-Dubs Eroy family). With 153 gRZG MAXIM presently is the highest available sire in Germany.
- Besides his high values for conformation (RZE 125) and production (RZM 144) also the total breeding profile is extremely impressive: udder health (RZS 114), milking speed (RZD 110), daughter fertility (RZR 111), longevity (RZN 119), calving ease (111)
- The „fab 5“: Maxim's dam Nova-TMJ Golden Echo (first right) and her Goldwyn sisters at Nova-Holsteins – a synonym for the uniformity and breeding stability of his cow family
